

Prinmat Tanzania

PRIVATE NURSES MIDWIVES ASSOCIATION

MISSION

PRINMAT is committed to reduce maternal mortality and morbidity of underserved community through provision of quality, general, sexual/reproductive health services, sensitizing community to utilize health services, lobbying/advocacy for improvement and research on health related issues. PRINMAT does so to compliment government efforts.

VISION

PRINMAT envisions a healthy community with high life expectancy

GOAL

Increase access to maternal and neonatal health including child and reproductive health in general

CORE VALUES

- Punctuality
- Sustainability
- Professionalism
- Commitment
- Voluntarism
- Solidarity/Cooperation
- Trustworthy and Confidentiality

ACTIVITIES

PRINMAT is basically a service delivery organization, it is a membership organization comprising of practicing Nurses and Midwives who independently provide services in reproductive and child health services, mostly at grass root communities/at the areas where community members are needy for health services.

- Services provided by private nurses and midwives include prevention of HIV to youth and community at large through integration of information to reproductive health services that are provided at the clinics
- Prevention of mother to child transmission of HIV (PMTCT)
- Antenatal care (ANC)
- Clean and safe delivery
- Post natal care
- Child health care (Under five years and immunization)
- Family planning services (FP)
- Comprehensive post abortion care using Misoprostal (Miso for PAC)
- Home based care
- Referral for essential obstetric care
- Health promotion and disease prevention to community members through health education for health seeking behaviour at grass roots communities.
